

THERAPEUTIC STAY FOCUSED ON PATIENTS WITH SPINAL CORD LESIONS

MEDICAL SPA
Janské Lázně

A specialized program designed for patients with complete spinal cord injuries, combining electroacupuncture with specialized rehabilitation care. The therapeutic program is aimed at supporting rehabilitation and improving mobility in collaboration with expert physiotherapists using the Ac-tive ENF electroacupuncture method. This unique method for treating nerve paralysis merges medical acupuncture with the knowledge of physical medicine, commonly used in rehabilitative medicine.

Minimum Stay Duration:

- › 2 weeks

Rehabilitation Program includes:

- 1× Initial Medical Examination
- 1× Final Medical Examination
- › Continuous Medical Supervision
- 3× weekly Electroacupuncture Sessions
- 3× weekly Individual Physiotherapy Sessions - 1 hour each
- 5× weekly Motomed Sessions
- 3× weekly Lymphoven Sessions
- › if indicated by a physician, walking training in an Exoskeleton
- 3× weekly Fitness Exercising under Professional Supervision, *or*
- 3× weekly electrostimulation for pediatric patients

Additional procedures can be arranged for a fee upon consultation with a physician based on current condition (hydrotherapy, laser therapy for bedsores, etc.)
